System Upgrade 24 Hour Notice: New Features & Subscriptions:

Dec 28, 2013

Dear Joe,

24 Hour Notice:

On Sunday December 29th at about 11 AM PST we plan to do a significant system upgrade. When we do this, it will be advisable to heed the posted warning you will see requesting that you temporarily make no changes to your Strategies or to your other account setting to prevent losing or scrambling any of your data. So, take a break and watch football, chase the kids, or clean the garage for a while until we get all the upgrades installed and working properly together. When the notice posted on the site goes away, you'll know it's ready for action again. Hopefully it will just be a few minutes.

What are the New Features?

More information about these features will be coming soon... but here is the list.

1. **You Will Have Up to 30 Active Strategies.**
2. **New Up/Down Arrows to Re-Organize Strategies.**
3. **New Records Page for Billing & Referrals Accounting.**
4. **Automatically Apply Referral Credits to Subscription Fees.**
5. **Strategy-of Strategies - Choose the Best Strategy.**
5. **Motif Portfolios - Create Your Sectors.**
5. **New Subscription Types to Accommodate 30 Strategies.**

Please review the last [NEWSLETTER HERE](#) for more information about subscription changes.

Surf Well,

Scott Juds
